

GENERAL HAZARD IDENTIFICATION AND ANALYSIS

MAIN HAZARDS	WHO MAY BE HARMED?
Possible road traffic accident	Pupils, Instructors, Members of the public
Impact with something solid	Pupils, Instructors
Slips, trips and falls	Pupils, Instructors
Abduction	Pupils
Getting lost	Pupils, Instructors
Injury from bike itself	Pupils, Instructors, Members of the public

GENERAL HAZARDS

HAZARD	RISK RATING Without controls	CONTROL MEASURES	RISK RATING With controls
Inexperienced pupils, maybe with low confidence and on road for the first time	Medium	Supervision by competent qualified instructors. Ratio 1:6 for Level 1, 1:3 for L2. High visibility clothing worn on road by all pupils and Instructors. Instructors briefed on pupils' medical and special needs. Training only takes place only in the risk assessed area. Pupils given clear guidelines for behaviour and briefed to stop safely on the left should anything unexpected happen or they are unsure what to do.	Low
Road traffic accident	Medium	Accident and emergency procedures known to Instructors. Only pupils who demonstrate adequate Level 1 control allowed to ride on road. Instructors follow guidelines in Instructors' manual for delivery of National Standards outcomes	Low
Slips, trips and falls	Medium	Instructor to inform pupils about any potential hazards. Instructors aware of the possible effect of different weather conditions. Instructor to identify any new specific hazards prior to pupils riding (see ANY OTHER SPECIFIC HAZARD)	Low
Injury from bike itself	Medium	Pupils to be supervised by instructors throughout sessions and only get on or cycle with permission. Clear guidelines given for behaviour when with the bike standing / walking / pushing. All bikes initially checked by Instructors with subsequent pupil's checks observed.	Low
Abduction	Low	Pupils to be in view of an Instructor at all times.	Low
Getting Lost	Low	Instructors briefed on routes and to be in view of an Instructor at all times.	Low

ROAD & TRAFFIC HAZARDS

HAZARD	RISK RATING Without controls	CONTROL MEASURES	RISK RATING With controls
Difficult/ unusual/ confusing junctions	Medium	Instructors to familiarise themselves with the area to be used before training begins. Identify any parts that are challenging, assess the abilities of pupils and select training site appropriate. For other difficult sections ensure only pupils with adequate skills and confidence ride them and that they are briefed on the best approach.	Low
Busy/fast roads	Medium	Ensure pupils are briefed before riding on these and understand how they affect decision making and manoeuvring.	Low
Steep gradients	Medium	Only to be ridden by pupils who have demonstrated sufficient braking and steering control. Instructors to warn pupils in advance, ensure they select appropriate gears and/or control speed.	Low
Kerbs/Bollards barriers etc	Low	Instructor to inform pupils about any potential hazards and brief them to adopt suitable road position that minimises risk of collision.	Low
Rough/uneven surfaces	Low	Ensure pupils are warned in advance to reduce the risk of sudden braking or steering	Low
Parked vehicles	Medium	Instructors to teach and the pupils to practice safe overtaking on a quiet section of road before they attempt junctions or more challenging sections.	Low
Very wide or narrow junctions/ carriageways	Medium	Instructors should emphasise the importance of good road position, ensure pupils understand priorities and use their own riding position to provide maximum protection where required.	Low
Restricted views	Medium	Instructors to warn pupils to take extra care with observations and to take positions that maximise the available views.	Low
Pedestrians	Low	Instructors to warn pupils to take extra care where there are large numbers or they may be distracted.	Low

Name of School: Glenfall			
Risk assessment Prepared by: D Muir	Position: Cycling Co-ordinator	Created: 17/9/13	Reviewed: 21/8/17

SCHOOLS- Please print a copy of this Risk Assessment for the instructors on the first day of training or, if you have any queries, please contact Don Muir (Cycling Co-ordinator)- (01452) 888717, don.muir@glosfire.gov.uk
 Road Safety Partneship, Gloucestershire Fire & Rescue Service HQ, Waterwells Drv, Quedgely Glos, GL2 2AX

TO BE COMPLETED BY INSTRUCTORS- please sign to say that you've read and understood the Risk Assessment

Instructors- Please return this part of the risk assessment with the register at the end of the training					

GENERAL NOTES ABOUT THIS SITE
London Road is excluded from the specified area , busy with traffic bunched together by traffic lights.

ANY OTHER SPECIFIC HAZARD (see map)	ACTION TO BE TAKEN
<p>1. A40 & Sixways traffic lights - busy road/junction</p> <p>2. Ryeworth Road /Glenfall Way - parked vehicles and steep gradient</p> <p>3. Glenfall Way /London Road - walk across using pedestrian crossing.</p> <p>4. Church Street- Shopping area with additional and unpredictable traffic movements</p> <p>5. Church Street/New Street - One way system and unusual road layout</p> <p>6. Copt Elm Road/Lyefield Road West - Mini roundabout</p> <p>7. Cherry Ave.- No road markings at either end</p> <p>8. Maple Drive/Beeches Road - Bend near junction restricts the view</p> <p>9. Ravensgate and Wistley -No markings at junctions on. Also possible parking close to junctions and some serious potholes.</p> <p>10. A435 is a busier road with a light controlled crossing.</p>	<p>Pupils to push bicycles using footpaths and pedestrian crossings.</p> <p>Instructors to warn pupils in advance to take extra care with observations and to have a good understanding of road position, priorities and use of gears.</p> <p>Use the light controlled pedestrian crossing or cross at Sixways traffic lights to access Charlton Kings area.</p> <p>Instructors to discuss with the need to take extra care with observations.</p> <p>Instructors to ensure that pupils have demonstrated a good understanding of standard junctions, and a clear understanding of priorities before riding here.</p> <p>This should only be used as an extra exercise for pupils who have demonstrated all the required outcomes on a standard range of junctions.</p> <p>Instructors to ensure that pupils have a good understanding of priorities and road position before using these junctions. Option to discuss/practice at Willow Rd./Maple Drive first.</p> <p>Instructors need to discuss with pupils the extra care and observations required, right turns will be more challenging so only for pupils who have demonstrated sufficient ability.</p> <p>Instructors to ensure that pupils have a good understanding of priorities and road position. Don't use for initial teaching and warn pupils to plan well ahead to deal with obstacles.</p> <p>Pupils to be walked along footways from Croft Rd or Bradley Rd to the crossing.</p> <p>Pupils who show sufficient awareness and control may do left turns from Croft Rd or Bafford Approach to the lights.</p>

Suggested Routes/Junctions for initial on road training (see map ). Instructors should train here until pupils have demonstrated sufficient skills and awareness to move on to more challenging roads and junctions within the specified area.

More Challenging Routes/Junctions for able pupils (see map ). Instructors to avoid or walk these sections with less able/inexperienced pupils and use them for left turns and other simple manoeuvres with the rest. Pupils who have demonstrated a sufficiently high level of ability may ride more demanding manoeuvres here as an extension activity during later sessions.

INSTRUCTORS NOTES

Any changes or additional hazards

Control measures and further actions

WHEN SHOULD THERE BE A REVIEW?

- Significant change to the environment
- Following an incident
- After a reasonable amount of time
