

GENERAL HAZARD IDENTIFICATION AND ANALYSIS

| MAIN HAZARDS | WHO MAY BE HARMED? |
|--------------------------------|--|
| Possible road traffic accident | Pupils, Instructors, Members of the public |
| Impact with something solid | Pupils, Instructors |
| Slips, trips and falls | Pupils, Instructors |
| Abduction | Pupils |
| Getting lost | Pupils, Instructors |
| Injury from bike itself | Pupils, Instructors, Members of the public |

GENERAL HAZARDS

| HAZARD | RISK RATING Without controls | CONTROL MEASURES | RISK RATING With controls |
|--|------------------------------------|--|------------------------------|
| Inexperienced pupils, maybe with low confidence and on road for the first time | Medium | Supervision by competent qualified instructors. Ratio up to 1:12 for Level 1, 1:3 for L2. High visibility clothing worn on road by all pupils and Instructors. Instructors briefed on pupils' medical and special needs. Training only takes place only in the risk assessed area. Pupils given clear guidelines for behaviour and briefed to stop safely on the left should anything unexpected happen or they are unsure what to do. | Low |
| Road traffic accident | Medium | Accident and emergency procedures known to Instructors. Only pupils who demonstrate adequate Level 1 control allowed to ride on road. Instructors follow guidelines in Instructors' manual for delivery of National Standards outcomes | Low |
| Slips, trips and falls | Medium | Instructor to inform pupils about any potential hazards. Instructors aware of the possible effect of different weather conditions. Instructor to identify any new specific hazards prior to pupils riding (see ANY OTHER SPECIFIC HAZARD) | Low |
| Injury from bike itself | Medium | Pupils to be supervised by instructors throughout sessions and only get on or cycle with permission. Clear guidelines given for behaviour when with the bike standing / walking / pushing. All bikes initially checked by Instructors with subsequent pupil's checks observed. | Low |
| Abduction | Low | Pupils to be in view of an Instructor at all times. | Low |
| Getting Lost | Low | Instructors briefed on routes and to be in view of an Instructor at all times. | Low |

ROAD & TRAFFIC HAZARDS

| HAZARD | RISK RATING Without controls | CONTROL MEASURES | RISK RATING With controls |
|--|---------------------------------|--|------------------------------|
| Difficult/ unusual/ confusing junctions | Medium | Instructors to familiarise themselves with the area to be used before training begins. Identify any parts that are challenging, assess the abilities of pupils and select training site appropriate. For other difficult sections ensure only pupils with adequate skills and confidence ride them and that they are briefed on the best approach. | Low |
| Busy/fast roads | Medium | Ensure pupils are briefed before riding on these and understand how they affect decision making and manoeuvring. | Low |
| Steep gradients | Medium | Only to be ridden by pupils who have demonstrated sufficient braking and steering control. Instructors to warn pupils in advance, ensure they select appropriate gears and/or control speed. | Low |
| Kerbs/Bollards barriers etc | Low | Instructor to inform pupils about any potential hazards and brief them to adopt suitable road position that minimises risk of collision. | Low |
| Rough/uneven surfaces | Low | Ensure pupils are warned in advance to reduce the risk of sudden braking or steering | Low |
| Parked vehicles | Medium | Instructors to teach and the pupils to practice safe overtaking on a quiet section of road before they attempt junctions or more challenging sections. | Low |
| Very wide or narrow junctions/ carriageways | Medium | Instructors should emphasise the importance of good road position, ensure pupils understand priorities and use their own riding position to provide maximum protection where required. | Low |
| Restricted views | Medium | Instructors to warn pupils to take extra care with observations and to take positions that maximise the available views. | Low |
| Pedestrians | Low | Instructors to warn pupils to take extra care where there are large numbers or they may be distracted. | Low |

Name of School: Forest View

Risk assessment Prepared by: D Muir

Position: Cycling Co-ordinator

Created: 31/05/2018

Last Reviewed: 25/04/2018

SCHOOLS- Please print a copy of this Risk Assessment for the instructors on the first day of training or, if you have any queries, please contact Don Muir (Cycling Co-ordinator)- (01452) 425229, don.muir@gloucestershire.gov.uk
Road Safety Team, Gloucestershire County Council, Shire Hall, Westgate St, GL1 2TH

Instructors- Please return this part of the risk assessment with the register at the end of the training

GENERAL NOTES ABOUT THIS SITE

Hills across the area make some of these roads more challenging but the selected teaching junctions should be manageable by most pupils. The Belle Vue Road / Mount Pleasant area is included for extension activities by pupils who have demonstrated all outcomes at less challenging junctions.

| ANY OTHER SPECIFIC HAZARD in the risk assessed area  (see map) | ACTION TO BE TAKEN |
|---|---|
| 1. Steep slope on Latimer Rd. down to junction with Littledean Hill Rd | All pupils will need to show good brake control before descending here. Instructors to ensure pupils understand the need to moderate their speed on approach to junctions |
| 2. Dockham Rd. becomes quite steep and narrow to the left of the Meadow Rd. junction | Only to be ridden by pupils who have demonstrated adequate control up and down similar slopes on less challenging roads. Instructors to discuss road position and the need for continual observation while riding here |
| 3. Busier roads carrying more large vehicles and a more complex junction | Only to be ridden by pupils who have consistently demonstrated all outcomes on less challenging junctions. Instructors to discuss with pupils the need for extra care with observations and decisions here and the issues of riding near large vehicles |
| 4. Roundabout at the top of St Whites Rd | Turns here only to be ridden by pupils who have consistently demonstrated equivalent manoeuvres at standard junctions. Others should be walked around |

Cycle paths (see map ).

Suggested Routes/Junctions for initial on road training (see map ). Instructors should train here until pupils have demonstrated sufficient skills and awareness to move on to more challenging roads and junctions within the specified area.

More Challenging Routes/Junctions for able pupils (see map ). Instructors to avoid or walk these sections with less able/inexperienced pupils and use them for left turns and other simple manoeuvres with the rest. Pupils who have demonstrated a sufficiently high level of ability may ride more demanding manoeuvres here as an extension activity during later sessions.

INSTRUCTORS NOTES

Any changes or additional hazards

Control measures and further actions

WHEN SHOULD THERE BE A REVIEW?

- Significant change to the environment
- Following an incident
- After a reasonable amount of time
