

**GENERAL HAZARD IDENTIFICATION AND ANALYSIS**

MAIN HAZARDS	WHO MAY BE HARMED?
Possible road traffic accident	Pupils, Instructors, Members of the public
Impact with something solid	Pupils, Instructors
Slips, trips and falls	Pupils, Instructors
Abduction	Pupils
Getting lost	Pupils, Instructors
Injury from bike itself	Pupils, Instructors, Members of the public

**GENERAL HAZARDS**

HAZARD	RISK RATING Without controls	CONTROL MEASURES	RISK RATING With controls
Inexperienced pupils, maybe with low confidence and on road for the first time	Medium	Supervision by competent qualified instructors. Ratio up to 1:12 for Level 1, 1:3 for L2, 1:2 for L3. High visibility clothing worn on road by all pupils and Instructors. Instructors briefed on pupils' medical and special needs. Training only takes place only in the risk assessed area. Pupils given clear guidelines for behaviour and briefed to stop safely on the left should anything unexpected happen or they are unsure what to do.	Low
Road traffic accident	Medium	Accident and emergency procedures known to Instructors. Only pupils who demonstrate adequate Level 1 control allowed to ride on road. Instructors follow guidelines in Instructors' manual for delivery of National Standards outcomes	Low
Slips, trips and falls	Medium	Instructor to inform pupils about any potential hazards. Instructors aware of the possible effect of different weather conditions. Instructor to identify any new specific hazards prior to pupils riding (see ANY OTHER SPECIFIC HAZARD)	Low
Injury from bike itself	Medium	Pupils to be supervised by instructors throughout sessions and only get on or cycle with permission. Clear guidelines given for behaviour when with the bike standing / walking / pushing. All bikes initially checked by Instructors with subsequent pupil's checks observed.	Low
Abduction	Low	Pupils to be in view of an Instructor at all times.	Low
Getting Lost	Low	Instructors briefed on routes and to be in view of an Instructor at all times.	Low

**ROAD & TRAFFIC HAZARDS**

<b>HAZARD</b>	<b>RISK RATING Without controls</b>	<b>CONTROL MEASURES</b>	<b>RISK RATING With controls</b>
Difficult/ unusual/ confusing junctions	Medium	Instructors to familiarise themselves with the area to be used before training begins. Identify any parts that are challenging, assess the abilities of pupils and select training site appropriate. For other difficult sections ensure only pupils with adequate skills and confidence ride them and that they are briefed on the best approach.	Low
Busy/fast roads	Medium	Ensure pupils are briefed before riding on these and understand how they affect decision making and manoeuvring.	Low
Steep gradients	Medium	Only to be ridden by pupils who have demonstrated sufficient braking and steering control. Instructors to warn pupils in advance, ensure they select appropriate gears and/or control speed.	Low
Kerbs/Bollards barriers etc	Low	Instructor to inform pupils about any potential hazards and brief them to adopt suitable road position that minimises risk of collision.	Low
Rough/uneven surfaces	Low	Ensure pupils are warned in advance to reduce the risk of sudden braking or steering	Low
Parked vehicles	Medium	Instructors to teach and the pupils to practice safe overtaking on a quiet section of road before they attempt junctions or more challenging sections.	Low
Very wide or narrow junctions/ carriageways	Medium	Instructors should emphasise the importance of good road position, ensure pupils understand priorities and use their own riding position to provide maximum protection where required.	Low
Restricted views	Medium	Instructors to warn pupils to take extra care with observations and to take positions that maximise the available views.	Low
Pedestrians	Low	Instructors to warn pupils to take extra care where there are large numbers or they may be distracted.	Low

**Name of School: Stone**

**Risk assessment Prepared by:** D Muir

**Position:** Cycling Co-ordinator

**Created:** 3/3/11

**Last Reviewed:** 14/3/19

**SCHOOLS-** Please print a copy of this Risk Assessment for the instructors on the first day of training or, if you have any queries, please contact Don Muir (Cycling Co-ordinator)- (01452) 425229, [don.muir@gloucestershire.gov.uk](mailto:don.muir@gloucestershire.gov.uk)  
Think Travel Team, Gloucestershire County Council, Shire Hall, Westgate St, GL1 2TH

**TO BE COMPLETED BY INSTRUCTORS- please sign to say that you've read and understood the Risk Assessment**

Instructors- Please return this part of the risk assessment with the register at the end of the training

**GENERAL NOTES ABOUT THIS SITE**

It is difficult to access many roads without making some use of the A38 and some of the quiet lanes are very narrow making them challenging in their own way. To access the teaching junctions instructors will need to walk pupils along the footway to Court Meadow

ANY OTHER SPECIFIC HAZARD in the risk assessed area (see map) 	ACTION TO BE TAKEN
<p>1. <b>A38 is busy and has central islands and reservations with right turn lanes.</b></p> <p>2. <b>The Stone Bridge to Lower Stone lane is very narrow</b></p> <p>3. <b>Damery Lane very narrow with some limited step off areas and sharp bends restricting views in places.</b></p> <p>4. <b>Wide junction on a bend with main road priority from Lower Stone to Rockhampton.</b></p> <p>5. <b>There is only a footpath linking the end of Danery Lane back to the A38.</b></p>	<p>Cycle lanes and the 40mph limit through the village make simple manoeuvres possible for pupils who have demonstrated sufficient consistency, awareness and confidence for the relevant outcomes on quieter roads. Ridden right turns here may be too challenging for Level 2. Instructors should teach the pedestrian right using central islands to simplify crossing but avoiding pupils stopping on road at the squeeze points. Instructors to discuss with pupils the importance of good observation and road position at all times on narrow lanes and ensure they understand how to respond when they encounter traffic on these sections.</p> <p>As above plus discuss with pupils the need for extra care with observations and decisions near the bends.</p> <p>Instructors to discuss with pupils the appropriate positioning for particular manoeuvres and the need for extra care with observations and decisions here. Right turns only to be ridden by pupils who have demonstrated consistency at less challenging junctions</p> <p>Instructors to plan routes accordingly. Riders will need to dismount and walk their bikes through.</p>

**Cycle paths (see map ).**

**Suggested Routes/Junctions for initial on road training (see map ).** Instructors should train here until pupils have demonstrated sufficient skills and awareness to move on to more challenging roads and junctions within the specified area.

**More Challenging Routes/Junctions for able pupils (see map ).** Instructors to avoid or walk these sections with less able/inexperienced pupils and use them for left turns and other simple manoeuvres with the rest. Pupils who have demonstrated a sufficiently high level of ability may ride more demanding manoeuvres here as an extension activity during later sessions.

**INSTRUCTORS NOTES**

**Any changes or additional hazards**

**Control measures and further actions**

**WHEN SHOULD THERE BE A REVIEW?**

- Significant change to the environment
- Following an incident
- After a reasonable amount of time
