

GENERAL HAZARD IDENTIFICATION AND ANALYSIS

MAIN HAZARDS	WHO MAY BE HARMED?
Possible road traffic accident	Riders, Instructors, Members of the public
Impact with something solid	Riders, Instructors
Slips, trips and falls	Riders, Instructors
Abduction	Riders
Getting lost	Riders, Instructors
Injury from bike itself	Riders, Instructors, Members of the public

GENERAL HAZARDS

HAZARD	RISK RATING Without controls	CONTROL MEASURES	RISK RATING With controls
Inexperienced riders, maybe with low confidence and on road for the first time	Medium	Supervision by competent qualified instructors. Ratio up to 1:12 for Level 1, 1:3 for L2. High visibility clothing worn on road by all riders and Instructors. Instructors briefed on riders' medical and special needs. Training only takes place only in the risk assessed area. Riders given clear guidelines for behaviour and briefed to stop safely on the left should anything unexpected happen or they are unsure what to do.	Low
Road traffic accident	Medium	Accident and emergency procedures known to Instructors. Only riders who demonstrate adequate Level 1 control allowed to ride on road. Instructors follow guidelines in Instructors' manual for delivery of National Standards outcomes	Low
Slips, trips and falls	Medium	Instructor to inform riders about any potential hazards. Instructors aware of the possible effect of different weather conditions. Instructor to identify any new specific hazards prior to riders riding (see ANY OTHER SPECIFIC HAZARD)	Low
Injury from bike itself	Medium	Riders to be supervised by instructors throughout sessions and only get on or cycle with permission. Clear guidelines given for behaviour when with the bike standing / walking / pushing. All bikes initially checked by Instructors with subsequent pupil's checks observed.	Low
Abduction	Low	Riders to be in view of an Instructor at all times.	Low
Getting Lost	Low	Instructors briefed on routes and to be in view of an Instructor at all times.	Low

ROAD & TRAFFIC HAZARDS

HAZARD	RISK RATING Without controls	CONTROL MEASURES	RISK RATING With controls
Difficult/ unusual/ confusing junctions	Medium	Instructors to familiarise themselves with the area to be used before training begins. Identify any parts that are challenging, assess the abilities of riders and select training site appropriate. For other difficult sections ensure only riders with adequate skills and confidence ride them and that they are briefed on the best approach.	Low
Busy/fast roads	Medium	Ensure riders are briefed before riding on these and understand how they affect decision making and manoeuvring.	Low
Steep gradients	Medium	Only to be ridden by riders who have demonstrated sufficient braking and steering control. Instructors to warn riders in advance, ensure they select appropriate gears and/or control speed.	Low
Kerbs/Bollards barriers etc	Low	Instructor to inform riders about any potential hazards and brief them to adopt suitable road position that minimises risk of collision.	Low
Rough/uneven surfaces	Low	Ensure riders are warned in advance to reduce the risk of sudden braking or steering	Low
Parked vehicles	Medium	Instructors to teach and the riders to practice safe overtaking on a quiet section of road before they attempt junctions or more challenging sections.	Low
Very wide or narrow junctions/ carriageways	Medium	Instructors should emphasise the importance of good road position, ensure riders understand priorities and use their own riding position to provide maximum protection where required.	Low
Restricted views	Medium	Instructors to warn riders to take extra care with observations and to take positions that maximise the available views.	Low
Pedestrians	Low	Instructors to warn riders to take extra care where there are large numbers or they may be distracted.	Low

Name of School: Harewood			
Risk assessment Prepared by: D Muir	Position: Cycling Co-ordinator	Created: 29/06/2011	Last Reviewed: 30/04/2018

SCHOOLS- Please print a copy of this Risk Assessment for the instructors on the first day of training or, if you have any queries, please contact Don Muir (Cycling Co-ordinator)- (01452) 425229, don.muir@gloucestershire.gov.uk
Road Safety Team, Gloucestershire County Council, Shire Hall, Westgate St, GL1 2TH

GENERAL NOTES ABOUT THIS SITE
Lots of good teaching junctions near the school but a few more challenging ones and some significant slopes as well. Instructors should have a good overview of the area so that they can plan routes appropriate to the riders in particular groups.

ANY OTHER SPECIFIC HAZARD in the risk assessed area  (see map)	ACTION TO BE TAKEN
1. The Longleat Ave./ Chatsworth Ave. junction is a crossroads with Denham CIs	This should still be suitable for teaching as Denham CIs. has no through traffic. Instructors should discuss with riders the effects on possible traffic movements and the extra care required with observations and decisions at these junctions
2. Steep hill with bends on this section of Chatsworth (and parallel bit of Thoresby Ave.)	Only to be ridden by riders who have shown good control up and down less severe gradients. Instructors to discuss with riders the importance of controlling speed and direction.
3. Shops on Windsor Drv. and Holmleigh Rd	Instructors to discuss with riders the effects on possible traffic movements and the extra care required with observations and decisions here
4. Roundabout on Tuffley Lane	Only to be ridden by riders who have consistently demonstrated relevant outcomes on standard junctions
5. Central reservations on side roads Randwick and Slimbridge Rds at junctions with Tuffley Lane	As for 4 above plus instructors to discuss with riders the priorities and ensure they don't turn into the wrong lanes

Cycle paths (see map ).

Suggested Routes/Junctions for initial on road training (see map ). Instructors should train here until riders have demonstrated sufficient skills and awareness to move on to more challenging roads and junctions within the specified area.

More Challenging Routes/Junctions for able riders (see map ). Instructors to avoid or walk these sections with less able/inexperienced riders and use them for left turns and other simple manoeuvres with the rest. Riders who have demonstrated a sufficiently high level of ability may ride more demanding manoeuvres here as an extension activity during later sessions.

INSTRUCTORS NOTES		
Any changes or additional hazards	Control measures and further actions	
WHEN SHOULD THERE BE A REVIEW?		
➤ Significant change to the environment	➤ Following an incident	➤ After a reasonable amount of time
